

NO ACCIDENTS IN NATURE

Every Calamity, No Matter How Great, Has a Definite Beginning.

There are no accidents in nature. The avalanche that without a moment's warning rushes headlong down the mountain side is not an accident. For years previous tiny atoms have been crystallizing, and adding their minute weight to the mass which left its base when the accumulation reached a certain point.

Neither is baldness an accident. The infinitesimally small germ which is the cause of Dandruff and Baldness, feeds silently and long before the result is seen. The small germs which thrive on the scalp and which are the cause of Baldness and Dandruff cannot exist, however, when Newbro's Herpicide is applied.

AMUSEMENTS

At the Orpheum.
Last week's bill at this popular playhouse proved one of the most popular yet booked by Manager Vucovich, and with a number of Orpheum patrons the close of the week is a source of regret, but the bill booked for the present week, opening at Monday's matinee, will doubtless prove equally as attractive and popular, in that each of the acts (three in number) are among the highest salaried acts of their class on the vaudeville stage. And too, the entire bill is a departure from the usual class of acts now on Southern vaudeville time.

The Musical Craigs, a trio of exquisitely trained artists, will lead the bill, with The Two Perris's, a team of novelty balancing gymnasts, and Harry Myers, an eccentric musician in an entirely novel act, as supports.

Orpheumscope Life Motion Pictures with musical effects by the Orpheum's excellent five piece orchestra, will be changed three times during the week; and, as usual, Professor J. A. Jones, will be heard at every performance in baritone solos, illustrated.

Beginning Monday afternoon, the doors will open for the matinee at 4 o'clock instead of 3:30 o'clock, and the show will begin at 4:30 instead of 4 o'clock.

At the Airdome.
The Airdome will have another bunch of stars for the coming week, the last one of whom was signed up last night in the person of Adonis, the Australian marvel, who has been the headliner at the White City in New Orleans during the past week, and who is one of the highest priced stars ever secured by the Bijou management.

A European novelty act which promises to take as well in Pensacola as it has elsewhere, will be put on by Ryan and Blodson, while Pensacolians will hear some of the best singing ever heard at the Bijou when Miss Katherine Martin appears. She is also a character change artist of much note, according to the press notices which she has been receiving elsewhere.

A swell team that will appear during the week is composed of Williams and Van Allen.

Altogether the Airdome has four fine attractions, in addition to up-to-date moving pictures, while its four piece orchestra adds much to the pleasure of each show.

The past week has been a record breaker and the crowds that have been at the Airdome each night have been highly pleased. The show was a good one, was appreciated by the patrons, and the management feels that in the list of attractions billed for the coming week there will be a repetition of the successes.

UNVEILING OF A MONUMENT

GREAT THROG GATHERS AND PARTICIPATES IN CEREMONIES WHEN BRONZE STATUE OF GEN. TILGHAM IS UNVEILED AT PADUCAH.

By Associated Press.

Paducah, Ky., May 15.—In the presence of a great throng of people, a Confederate monument, surmounted by a heroic bronze statue of General Lloyd Tilghman, was unveiled today in Lang Park, a small circle on Fountain avenue. The monument was erected to the memory of the Confederate soldiers and sailors by the Paducah chapter, United Daughters of the Confederacy. The bronze figure of General Tilghman was a gift from his two sons, Frederick B. and Eidel Tilghman, of New York, who were present today. Henry H. Kitson, of Boston, who designed the figure, was also in attendance as was Lloyd Tilghman, of Milwaukee.

The principal address, delivered by Captain William T. Ellis, of Owensboro, Ky., a prominent Confederate veteran and former congressman, paid high tribute to the old soldiers who wore the gray, the loyal Confederate daughters and the brave leader whose figure adorns the base. Captain Ellis's oration consumed two hours and was an able effort.

Dr. D. G. Murrell, chairman of the Veterans' monument committee, delivered the welcome address, which was responded to by Captain W. J. Stone, of Kuttawa, Ky., former congressman and well-known Confederate veteran.

THE MUSKOGEE TOWN LOT FRAUD CASE MUDDLE

Federal Judge Dismisses the Grand Jury on Ground of Improper Influences—Another Jury Ordered.

By Associated Press.

Tulsa, Okla., May 15.—Upon motion of the government, Judge John A. Marshall of Utah, in the United States circuit court here today dismissed the grand jury empanelled last Tuesday to re-investigate the Muskogee town lot fraud cases.

Judge Marshall upheld the government's contention that the jury had been subjected to improper influences. The motion to dismiss the jury was made because it failed to find indictments against C. W. Turner and W. T. Hutchins.

Following the dismissal, Judge Marshall ordered another grand jury of sixteen men to report Tuesday next. He also ordered that all witnesses be subject to call of the court.

FLORIDA SURVEY DIFFICULT TASK

AS BIG A JOB AS THAT OF PANAMA—AREA WILL BE MUCH WIDER—THE BOARD OF ENGINEERS ADJOURNS.

man took a survey under the 1907 rivers and harbors appropriation bill that will practically answer the purpose for this section of the route.

In both the Wilmington and Charleston districts it wasn't very hard to decide upon preliminaries for the surveys. In some places it may be deemed advisable to shift the route somewhat before recommending a permanent channel, but it wasn't hard for the board to get together on these matters. Allotments will be asked for the surveys in these two districts.

The East Coast.
Down the Florida east coast it is a different proposition, however. Surveys of this 500-mile stretch are relatively few and an immense amount of preliminary work must be done before any definite route for a survey can be determined upon.

The survey across the state for a ship canal is as big or bigger job than the survey across the isthmus of Panama for the Panama canal was, in the estimation of Co. Kingman, the chairman of the board. It is three or four times as wide as the isthmus and the summit level isn't so much different in height.

Capt. Spaulding, the engineering officer at Jacksonville, was asked by the board to collect information both of the coast survey and for this one. He was asked to secure all grade maps of the railroad systems crossing
